Indian Institute of Information Technology Vadodara
Harshil Patel

Education

Indian Institute of Information Technology Vadodara — **Aug 2024 – Apr 2028 (Expected)**
B.Tech in Computer Science and Engineering ***CPI: 6.74*** — *Diu, India*

Cosmos Castle International School — **Jun 2022 – Mar 2024**
Class XII (Higher Secondary), CBSE ***Percentage: 77%*** — *Ahmedabad, Gujarat*

Sanskar Vidhya Bhavan — **Apr 2012 – May 2022**
Class X (Secondary), CBSE ***Percentage: 90.4%*** — *Bharuch, Gujarat*

Experience

Bhumi Developers / BD Buildcon LLP — **19 May 2026 – 25 Jul 2026**
Web Development Intern, Bharuch, Gujarat — Bhumi Site | BD Site

- Developed and launched **two corporate websites** for real-estate and EPC businesses using Next.js, React, and TypeScript.
- Built project galleries, PDF brochure flows, an authenticated employee area, and reusable motion components.

Freelance Full-Stack Developer | **Portfolio** — **May 2025 – Present**
Selected clients: PickleRage, Mann Beauty Studio, Hare Krishna, Taste of Punjab — *Remote*

- Built **six client products for four businesses**; shipped three live web products across sports, beauty, and hospitality.
- Engineered booking/payments, loyalty CRM, attendance/payroll, and admin workflows using React, TypeScript, Firebase, Razorpay, Capacitor, real-time sync, and RBAC.

Projects

PayMatrix | *React, Firebase, Gemini Vision, Tailwind, Capacitor* | GitHub | Live Demo

- Architected **React/Redux** PWA with Firestore snapshot listeners and offline persistence for real-time group synchronization.
- Implemented **O(n log n)** greedy settlement engine and server-side Gemini receipt-scanning proxy with schema validation.

PlayHub | *React, TypeScript, Firebase, Capacitor, Razorpay* | GitHub

- Built **React/TypeScript** booking platform with Firebase Auth, Firestore real-time availability, maps, and role-based user flows.
- Integrated Razorpay through **Cloud Functions** for server-side order creation and payment verification; packaged with Capacitor for Android.

Technical Skills

- **Languages**: C++, Python, TypeScript, JavaScript, SQL
- **Frameworks & Backend**: React, Next.js, Node.js, Redux Toolkit, Firebase Auth, Firestore, Cloud Functions
- **Tools & Integrations**: Git, GitHub Actions, Docker, Vercel, Capacitor, Razorpay
- **Core CS**: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
